

# **Nexus Geographic Channel:** The Atlantic Puffin

**The Project Manual**

# Introduction

In this project, you will be using the following application:

- Keynote

- Pages

- Garageband

- Google Apps

# Scenario

Nexus International School has established a new teaching program called the “[Nexus Geographic Channel](#)”. The objectives of this program are:

- To engage students,
- To reinforce learning through multiple learning elements,
- To instill awareness & appreciation for the environment.

For the first class, you will be sharing about [The Atlantic Puffin](#). You will create a presentation with [Keynote](#); create a quiz & additional reading material with [Pages](#); produce a voice over recording with [Garageband](#); and create an online quiz with [Google Apps](#).

# Project Description I

This project is divided into **four (4) sections**:

## **Section A** *(15 minutes)*

Create a Voice Over Recording with Garageband

## **Section B** *(15 minutes)*

Create an Online Quiz with Google Apps

## **Section C** *(20 minutes)*

Create a Downloadable Quiz & Additional Reading Material with Pages

## **Section D** *(40 minutes)*

Consolidating all Elements to create a Keynote Presentation

# Project Description II

You may work on this project as

- an **individual** OR
- as a **group of three (Recommended)**

# Before you start

Look through the “Storyboard” document and study the elements.

Note: This project manual is created with iWorks '08. Hence, some of the interface may appear different from yours.

*Tip: Create a storyboard or a script before the start of any project. Not only will it help you manage your project better, it will also save you lots of time :)*
